Directions for RMS Bath Tub for 5" balloons For other sizes use balloons sized to match framework.

MATERIALS

1 Pair of RMS Bath Tub Matrixes (in package)

240 Balloons, 5" Teal - Mass of Tub

106 Balloons, 5" White - Top Trim Of Tub 38 Balloons, 5" Black - Under Tub Filler

NOTE: You may substitute balloon colors to suit your project.

STEP 1

Stretch Matrix - Lift a few rows at a time straight up. Move down and lift a few more rows until all apertures have been stretched open. The Matrix will spring back to near its original shape. But, it will be easier to load balloons in later steps.

If some apertures resist opening then open them as shown below.

STEP 2

For very neat results tie most balloons in very tight pairs and trim off excess balloon necks.

*NOTE: The 8 openings marked in Red, require balloons to be custom sized to fit.

STEP 3

Load balloons into first framework. Place one balloon of each pair in an opening and one balloon above and outside the framework as shown in **B**. Then,

force each of the loose balloons into the corresponding opening of the second framework as shown in ${\bf c}$

Use Suggestions:

It can be great fun to use the tub as a prop for photos. Set a bench or a couple of stools or chairs behind the Have guests pose tub. behind the tub as if they were taking a bath or playing in the tub. Add accessories like clear balloon bubbles, a long handled brush, soap, towels and wash cloths. Put the whole set in front of a larger theme background.
