"Stretch Your Imagination"™

ROUSE Instructions

<p><b>1</b></p> <p><b>PREPARE MATRIX</b></p>	<p><b>Unfold Matrix</b></p> <p>Spray paint &amp; extra adhesive if desired.</p>	<p>Matrix has lite coat of adhesive.</p> <p>To color Matrix, spray paint on top of adhesive, let dry, then add final coat of adhesive (3-M #77 is suggested).</p>	<p><b>Stretch Matrix</b></p> <p>Correct any twists in the Matrix as you go.</p>
----------------------------------------------	---------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------

**TIP:** Many paints are brittle when dry and will crack off the Matrix when the plastic is bent. Test paint before use.

<p>If some cuts in the Matrix resist opening, flex them back and forth and pull them open.</p>	<p><b>Area that should open</b></p>	<p><b>Bend down on both sides</b></p>	<p><b>Bend up on both sides</b></p>	<p><b>Pull apart.</b></p>
------------------------------------------------------------------------------------------------	-------------------------------------	---------------------------------------	-------------------------------------	---------------------------

**NOTE:** If you need other sizes in these shapes, ask your distributor about Custom Made Rouse Matrix Designs.

<p><b>"Carrier Tabs"</b></p> <p>facilitate handling.</p> <p>Cut or tear them off at the joint before loading balloons.</p> <p>You will recognize the joints by the tiny (0.05") connection.</p>	<p><b>"Connector Tabs"</b></p> <p>are used to join one Ribbon section to another.</p> <p>Simply insert one tab end through the heart shaped opening in a matching tab.</p>
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------

**TIP:** The best balloon inflation size can vary depending on softness and slickness of balloons. Test for best results.

<p><b>2</b></p> <p><b>PREPARE BALLOONS</b></p>	<p><b>Inflate &amp; squeeze balloons</b></p>	<p><b>Size balloons to 4".</b></p>	<p>For very neat results tie most balloons in very tight pairs and trim off excess balloon necks.</p>	<p>For faster completion of your project, tie most balloons far apart and skip trimming step.</p>
------------------------------------------------	----------------------------------------------	------------------------------------	-------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------

Visit our web site at <http://RouseInternational.com> for photos and more decorating products and decorating ideas.

<p><b>3</b></p> <p><b>LOAD BALLOONS</b></p>	<p>Roll balloons into place with the dark spot on the tops of the balloons pressed against the Matrix and the necks of both balloons pressed against the strap between the balloons.</p>		<p>Equal portions of each balloon should be above and below the Matrix straps.</p>
---------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	------------------------------------------------------------------------------------

Ask your distributor about other Rouse Products to make ballooning more fun, more effective, and more profitable.

<p>Ribbons may be hung vertically, draped horizontally or bent into bows. The shape to the right is a popular form to remind viewers of special causes when balloons are loaded in specific colors and patterns.</p>
