# **Product Directions** В. C. Basic

### Directions for RMS 6' Sea Horse For other sizes use balloons sized to match framework.

#### **MATERIALS**

- (1) RMS Sea Horse Matrix (in package)
- (121) 5" balloons
- (1) Inflator to blow up balloons(2) Templates for sizing balloons

#### STEP 1

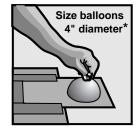

Matrix has lite coat of adhesive.

To color Matrix, spray paint on top of adhesive, let dry, then add final coat of adhesive (3-M #77 is suggested).

#### STEP 2

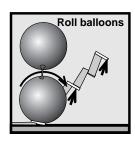

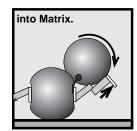

For very neat results tie most balloons\* in very tight pairs and trim off excess balloon necks.

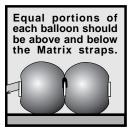

\* NOTE: For openings marked in grey use 3" diameter.

#### STEP 3

## STEP 4

Some of the openings marked in grey require connector tabs to be joined as shown to the right. These openings and the others marked in grey hold balloons inflated 3" in diameter.

TIP: The best balloon inflation size can vary depending on softness and slickness of balloons. Test for best results.
