

Pocket Heart

(For use with RMS™ 2' Hearts)*

Materials Needed:

- 53 White 5" Balloons (or another desired color)
- 4 White #260 Balloons (or another desired color)
- 2 RMS™ 2' Heart Frameworks

Directions:

Open RMS™ 2' Hearts according to packaged directions.
Spray paint RMS™ 2' Heart now if desired. Let dry.
Remember: add a light coat of spray adhesive after painting.
Cut one RMS™ Heart Framework as indicated in diagram #1.
(Conserve top portion of cut heart for future use.)

Diagram #1

- Inflate 50 5" white balloons to 4" in diameter and tie in doublets with balloons close together.
- Inflate 1 5" white balloons to 4" in diameter.
- Inflate 2 5" white round balloons to 3" in diameter.
- Inflate 2 #260 Balloons 36" in length.

- Load doublets of 5" white balloons horizontally into RMS™ 2' Heart Framework per RMS™ general heart instructions into white area as indicated in Diagram #2.
- Load single balloons into remaining three apertures of the white area.
- Load doublets of 5" white balloons vertically into the gray area as indicated in Diagram #2.

Diagram #2

Tie two #260 balloons together at the inflation ends. Open the two #260 balloons and form a circle around the neck of a vertical doublet at one end of the line of grey apertures in Diagram #2. Twist. Repeat the circle and twist pattern until all vertical doublets have been encircled.

Install three doublets horizontally, as indicated by the black section of Diagram #3, into the half heart Matrix. Affix the half Heart Matrix to the 10 top balloons of the vertical doublets. See Diagram #3.

Diagram #3

Fill the RMS™ Pocket Heart with flowers and greenery as desired,.

***Note:** This design may be created in RMS™ 3' Heart Framework. Use 9" or 11" round latex balloons underinflated to 6" instead of the 5" balloons underinflated to 4".
